vector21 hot tubs deliver a flow and force unlike any seen before in the galaxy of hot tubs: control and versatility unequaled in any other advanced system concept: individual command and control, yet perfectly designed for transporting a full vessel of hot tub experiences: a new vessel to transport body, mind and soul at 104 degrees.

Our progressive systems: V-O-L-T™ high-flow therapy, ConstantClean™ water management, and MicroSilk® health and beauty treatment combine to create the "Big 3" for *the Ultimate Hot Tub Experience!™*

vector21 MARQUIS. The ULTIMATE Hot Tub Experience!

1 VECTOR21 V-O-L-T™ SYSTEM

Vector-Optimized Laminar Therapy (V-O-L-T) System is a powerful performance feature within the high-flow therapy design of Vector21. In laminar flow there are no cross-currents perpendicular to the direction of flow, nor eddies or swirls of water. This delivers maximized flow volumes and significant hydrotherapy benefits. Also unique are the Jetpods: Directional Jetpods provide deep muscle massage by targeting precise locations; Orbital Jetpods address a broad area with a rotating massage delivering a strong, paced flow and a true sensation of massage movement on the skin; Conal Jetpods benefit an expanded skin surface area with a gentler massage.

But the colossal Whitewater-4™ jet will really move you with a stimulating foot, leg or whole-body massage.

VARIABLE VELOCITY VALVES™ (V^3)

Simple to understand and operate, Variable Velocity Valves (V^3) are the Vector21's primary flow-control system. Throttle from 0 to 100 percent of a pump's water flow to specific seats. Between three and five V^3 Throttle Controls are available depending on which hot tub you select, each located near the seat or pair of seats it activates. How smart is that!

But don't just take our word for it. Schedule a private test soak to experience the feeling yourself!

JETPODS DELIVER SPECIALIZED MASSAGE THERAPY AND CUSTOMIZATION

Vector21 can deliver water precisely where you want it around the vessel to maximize the delivery of hydrotherapy benefits. Adding to the unique flow dynamics created by Vector21's revolutionary design, Jetpods allow you to maximize your experience and are now arranged in a collection of specialized massage seats.

Deep-Tissue Massage Seat An array of Directional Jetpods drives this muscle and deep-tissue massage therapy concept. Strategically placed to offer larger muscle groups a deeper massage experience, the Directional Jetpods can be adjusted to penetrate deeply into muscle locations without high-pressure skin surface irritation. Deep-tissue massage is often used for over-used and stressed muscle recovery. The high-flow hydrotherapy engineered into Vector21 maximizes this muscle and fascia Deep-Tissue Massage Seat experience.

Shiatsu Massage Seat Inspired by the Japanese concept in massage therapy, shiatsu means "finger pressure" and looks to move pressure to areas that open up the meridians and return balance to the body. Orbital Jetpods rotate over the skin creating a firm, yet moving sensation as it penetrates the surface tissue. The Shiatsu Massage Seat location can help you relax and rebalance as Vector21 transports you to a better place.

Relaxation Massage Seat Conal Jetpods provide a gentle topical sensation of movement on the surface of the skin. They uniquely diffuse the flow to provide a persistent gentle massage without deeper muscle manipulation. The Relaxation Massage Seat is a peaceful location to re-center.

Swedish Massage Seat This configuration utilizes Directional, Orbital and Conal Jetpods. Swedish Massage incorporates an array of concepts, with massage strokes that glide and knead, as well as provide friction and vibration. All intended to increase the blood flow, unbind fascia and wake up the body's circulation. The Swedish Massage Seat can offer a variety of massage sensations simultaneously.

Not to be forgotten is foot reflexology, the belief that reflex points in the feet correspond to different body organs and systems, and that pressing them creates real health benefits. Vector21 hot tubs feature reflexology footwells, and some models also feature a colossal Whitewater-4™ jet in the footwell. The massive flow volume of this revolutionary jet design is a great foot-massage feature.

*Specialized Massage Therapy Seats may vary from model to model

V65L: 3 PERSON HOT TUB

Specialized Seats: Deep-Tissue Relaxation Swedish

The V65L is your personal vacation at home. Its compact size fits tight spaces, and can be located anywhere thanks to 120 Volt plug-and-play convenience. 22 Jetpods soothe weary muscles, a comfortable Commander's Lounge lets you really chill out, plus a cooldown seat is the perfect perch. Just add friends for serious fun!

2 CONSTANTCLEAN™ & SMARTCLEAN™

ConstantClean includes Vortex filtration that pulls debris from both the surface and bottom of the hot tub and SmartClean technology that automatically schedules a cleanup cycle after the hot tub is used. ConstantClean+ includes an optional ozonator to oxidize bacteria and contaminants, plus an optional in-line system that feeds minerals and sanitizes on an automatic basis. This comprehensive management of water care results in less chemical use, longer periods between draining and filling and crystal clean water.

3 MICROSILK® HEALTH & BEAUTY

MicroSilk beauty treatment moisturizes and hydrates at the same time, making your skin feel luxuriously silky as well as reducing fine lines and wrinkles. Micro-bubbles literally envelope your body in a soothing, effervescent cloud of oxygen. Yes, oxygen is good for your skin. Increased oxygen levels result in better circulation and cellular respiration, which in turn leaves the skin glowing and radiant due to rapid skin cell regeneration. Sounds like one unique option you'll love! To find out more about this revolutionary system visit: marquisspas.com/microsilk.

THERAPY

V84L: 5 PERSON HOT TUB

Specialized Seats: Deep-Tissue Relaxation Shiatsu Swedish

The V84L assures you and your friends are going to blast off in this dynamic hot tub. Five people can easily find the perfect seat, including a cooldown seat.
